German Company

# Actomins® Woun-Vit

**Effervescent Tablet Supplementation containing  
L-arginine, Selenium, Zinc, Cyanocobalamin  
(Vitamin B<sub>12</sub>), Vitamin E, Vitamin C, Vitamin D<sub>3</sub>,  
Folic acid**

## Ingredients:

- L-arginine • Folic acid • Selenium • Zinc
- Vitamin C • Vitamin D<sub>3</sub> • Vitamin B<sub>12</sub> • Vitamin E

**L-arginin**, is a precursor for nitric oxide, which is necessary in the inflammatory process of wound healing, and is also used in the production of collagen. L-arginine supplementation also increase collagen deposition in wounds.

**Folic acid**, aids wound healing process by reducing oxidative stress, increasing fibroblast production, increasing the biological production of collagen and the rate of collagen production.

**Zinc**, enhances granulation tissue development and epidermal formation in the early inflammatory phase of wound healing.

**Vitamin B<sub>12</sub>**, helps cell proliferation, increase immune and nervous system function, maintain healthy skin and muscle tissue, and increase metabolic rate.

**Selenium**, is a key ingredient in regulating immune and inflammatory responses and is an essential micronutrient required for more than 25 proteins in the body. Selenium has also been shown to accelerate the wound healing process.

**Vitamin D<sub>3</sub>**, is necessary to protect the body against infection and to initiate the normal repair process of wounds. Vitamin D deficiency can compromise the body's innate immune system, which works to resist infection, making the patient more vulnerable to germs.

**Vitamin E**, increases wound closure rate. Studies have shown that vitamin E supplementation is beneficial for wound repair and immune functions.

**Vitamin C**, is necessary for collagen synthesis. Also, it is a highly effective antioxidant that protects cells from damage by free radicals. Studies have shown that vitamin C improves the healing process of wounds.

Packaging		
Unit	Pieces in Box	Article-No.
20 Pcs	20	17.7361.20

Active Ingredient	1 Effervescent Tablet
L-arginine	600,00
Vitamin C	500,00
Vitamin E	25,00
Zinc	10,00
Cyanocobalamin (Vitamin B <sub>12</sub> )	1,00
Folic Acid	0,50
Selenium	99,00 µg
Vitamin D <sub>3</sub>	25,00 µg
