Actolind® Baby Spray

Cleaning Spray for Diaper Region

Actolind® Baby Spray is used to clean the diaper region and protect the baby from allergic reactions when you change your babies' diaper. **Non-irritating, safe formulation** is ideal for the sensitive skin. The product **cleans** and **moisturizes**. It is the ideal solution to **prevent rash and irritation**. Does not cause burning sensation.
Reduces skin tension and removes dryness.

- ✓ It is the most hygienic solution compared to other alternatives in the skin cleansing.
- ✓ It can be used for whole body cleaning as well as for.
- ✓ Prevents rash and irritation.
- ✓ Protect your baby's skin.
- ✓ Use is practical.
- ✓ It does not contain alcohol and paraben.
- ✓ Tested and approved by the German Dermatest Institute.

Usage Advice:

Actolind® Baby Spray usage is practical and safe. It can be sprayed directly into the diaper region and dried with a cotton or soft clean cloth.

Optionally, the area may be wiped by spraying cotton or cloth. If your baby wees, one or two wipes would be sufficient.

If your baby poos, you should first clean the area completely and apply the cleaner product.
